

SelectUSA Investment Summit 2025 - National Harbor, Maryland, May 11-14

The SelectUSA Investment Summit is the U.S. Department of Commerce's highest-profile event that connects potential investors or firms looking to expand their U.S. presence with local and regional economic development organizations from around the country to facilitate investment, expansion, and job creation. It's a great opportunity for companies looking to enter the U.S. market or grow their U.S. presence to engage with relevant organizations, learn from experts, and explore investment opportunities. Key reasons to attend include:

- One-stop shop for U.S. expansion: Meet representatives from all U.S. states and territories, access expert guidance, and explore financing options.
- Connect with potential partners: Network with economic development organizations, accelerators, and incubators, as well as potential partners and investors.
- Develop your investment strategy: Learn from industry experts and policy leaders through workshops and sessions on relevant topics.
- Proven track record: The Summit has facilitated over \$110 billion in new investment and supported the creation of over 85,000 jobs across the U.S.

The SelectUSA application and costs can be found at its website <https://www.selectusasummit.us/>. **Please note that there is a vetting process, and the Department of Commerce makes the final decision on approval for participation.**

This four-day program will include main stage sessions with speakers from the White House, the Cabinet, global CEOs, and U.S. state and territory governors. International businesses interested in opening or expanding operations in the United States and Economic Development Organizations (EDOs) will meet to discuss their business plans and state-level resources, programs, and incentives at the Exhibition Hall. The Exhibition Hall will also house the U.S. Government Pavilion, where international businesses can meet federal agency representatives to discuss policies, regulations, and resources relevant to their investment plans. The Investment Summit also features workshops to help international businesses better understand the U.S. market and technical aspects of investing in the United States, including visas, site selection, federal and state incentives, and more.

Last year more than 5,000 participants attended the SelectUSA Investment Summit, breaking the previous record, with EDO representatives from 56 U.S. states and territories, and over 2,500 business investors from 96 international markets.

In addition to private sector companies, participation in SelectUSA by government officials and business associations, as well as private sector companies, is encouraged.

If you are interested in joining a delegation to the SelectUSA Summit led by the United States Embassy in Cyprus, please contact Ms. Ephie-Yvonne Charalambidou, Commercial Specialist at charalambidouey@state.gov.
